

FLOOR SOLUTIONS

Built for Every Step.

BAR | RESTAURANT | KAFÉ | OUTDOOR

DECORATIVE TILES.

Specified by Zone. Built for Service.

Transform restaurant interiors and exteriors with a tile selection matched to how each area is actually used. Back-of-house, front-of-house and outdoor zones each carry different demands, and each is specified differently.

The Decorative Tiles range covers quarry tile, porcelain, terrazzo, natural stone and outdoor pavers. Formats, finishes and surface textures are selected to suit the traffic, moisture and cleaning routine of each zone.

Decorative Tiles form part of BAREKA's Walls and Flooring pillars within the Restaurant-in-a-Box Total Solution — so floors, walls and ceilings are specified together rather than sourced separately.

BACK-OF-HOUSE & OPERATIONAL ZONES

Built for Heat. Made for Washdown.

Kitchens and service areas face grease, heat, spillage and daily washdown. Tiles here are specified for slip resistance and impact tolerance ahead of appearance.

Ideal for commercial kitchens, food preparation areas, dishwashing stations and back-of-house service corridors.

QUARRY TILE — Commercial kitchens, food prep and dishwashing

- Dense unglazed clay body
- Slip resistant underfoot
- Impact tolerant
- Suited to grease, heat & constant washdown
- Laid with wide epoxy grout joints

FULL-BODY HEAVY-DUTY PORCELAIN — Kitchen lines, coolers and equipment zones

- Colour runs through the full body, so wear does not show
- Anti-slip texturing (DCOF $\geq$ 0.60 | R11–R12)
- Impervious to water
- Suited to heavy rolling loads & impact
- Cleaned by auto-scrubber or mop

FRONT-OF-HOUSE INDOOR ZONES

Seen by Guests. Built for Traffic.

Dining rooms and bars are specified for appearance and wear together. The finish carries the design identity while the body underneath takes commercial traffic.

Ideal for dining rooms, bar fronts, entrances and guest-facing interiors.

GLAZED & THROUGH-BODY PORCELAIN — Dining areas, bars and entrances

- Durable under commercial foot traffic
- Stain resistant
- PEI IV–V wear rating
- Matt & light-texture surfaces
- Wood grain, stone and concrete looks

TERRAZZO & CEMENT TILES — Feature floors and decorative zoning

- Two routes to the same look, chosen on maintenance:
- Real terrazzo & encaustic cement — High decorative character; sealed on installation and periodically thereafter
 - Porcelain terrazzo & cement look — Zero porosity, low maintenance, no sealing

LARGE FORMAT PORCELAIN SLABS (XL) — Feature walls, bar cladding and statement rooms

- Sizes up to 1200 × 2780 mm
- Minimal grout lines
- Hygienic & easy to clean
- Continuous, uninterrupted surface
- Specialist installation required

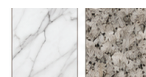

CERAMIC TILES — Vertical walls and feature walls

- Lightweight
- Glossy glazed finish
- Broad colour and pattern range

GLASS & CERAMIC MOSAICS — Accents, bar aprons and restrooms

- Flexible across curved & detailed areas
- Easy to clean
- Frequent grout joints add slip resistance on wet floors

NATURAL STONE TILES — Fine dining and private dining rooms

- Marble & granite
- Distinctive natural veining
- Sealed on installation and periodically thereafter
- Cleaned with a dedicated stone cleaner

OUTDOOR DINING & ALFRESCO ZONES

Open to Weather. Ready for Service.

Outdoor floors take rain, sun and temperature change alongside daily foot traffic. Tiles here are specified for breaking load, slip resistance when wet and colour stability.

Ideal for patios, street-side seating, rooftop bars and poolside dining.

20MM OUTDOOR PORCELAIN PAVERS — Patios, street-side seating and rooftop bars

- 20 mm thickness
- High breaking load
- Weatherproof & UV stable
- Laid over pedestals, gravel, sand or wet bed
- Lifted and relaid without demolition

ANTI-SLIP TEXTURED PORCELAIN (10–12 MM) — Covered terraces and pathways

- Enhanced surface roughness
- (DCOF $\geq$ 0.60 | R11–R12)
- Weatherproof & UV stable
- Suited to sheltered and semi-exposed areas

SEALED TERRACOTTA TILES — Rustic and Mediterranean schemes

- Earthy tone with natural patina
- Warm, handmade character
- Sealed on installation and periodically thereafter
