ALAN
COLLECTION
By Enrique Marti

This chair is strength refined, a secure metal frame that balances sturdiness with elegance. Its seat and backrest variations let you choose the personality your space deserves. More than a seat, it's a refuge where comfort meets style.

Wood brings warmth, upholstery offers softness, and metal makes a bold statement. Every detail is designed for inspiration, turning each moment into an opportunity to create and transform your space with authenticity.

This chair unites artisanal warmth with structural precision. Its lateral weave wraps the seat like a fabric of tradition reinterpreted for contemporary design, while the cushion invites pause, comfort, and ease.
True comfort goes beyond the physical. It is visual, emotional, and tactile. Here, strength meets softness, creating a space where the body rests and the mind breathes.

EKO

埃科

A reflection in the harmony of engineering and nature. Its vertical structure rises with precision, rooted in stability, then branches outward like a tree, strong at the core, open to growth.

The design ensures perfect load distribution while symbolizing strength, expansion, and progress. A piece where structure meets meaning, crafted for those who value both function and vision.

SIRA 塞冉

This table is born from the purest aesthetic. Its structure is inspired by sculpture, where the fluid curve of its legs evokes the trace of a continuous line, as if drawn in a single, purposeful gesture. The design seeks to harmonize geometry with emotion. The firm, serene circular base seamlessly transforms into two stylized columns that gently rise to delicately support the tabletop. This table follows a logic of visual and functional balance.

TEXAS 德克

A chair that starts with the essential: a firm, serene metal structure that supports without imposing itself. From there, the material defines the experience. Wood, for those seeking the warmth of nature. Metal, for those who prefer the understated strength of the industrial. Upholstered, for those who understand comfort as part of design. Each version is a different interpretation of the same idea: living with simplicity, with character, with meaning. And this chair is made to accompany, not to dominate. Simple, versatile, timeless.

RISE

锐升

The Rise Collection reimagines outdoor living with lightness, clarity, and quiet confidence. Built on sleek aluminium frames and wrapped in a distinct two-tone rope weave, each piece offers a study in contrast structure and softness, strength and ease. Paired with dual-colour upholstery, Rise balances bold design with a natural rhythm, making it equally at home in lush gardens or modern terraces. Durable yet refined, it invites you to slow down, sink in, and connect with nature, with others, with yourself.

KARL
COLLECTION

By Enrique Marti

This chair celebrates the union of materials, each telling its own story. A solid frame metal or wood brings strength and character, while the seat and backrest offer options: the natural warmth of wood or the soft embrace of upholstery.

Every combination invites you to pause, creating moments of calm in the flow of daily life. Strength meets delicacy, function meets emotion.

More than a chair, it's an experience—designed to inspire, to accompany your best moments, and to turn any space into a refuge of comfort and style.

ZARO
COLLECTION
By Enrique Marti

This table was born from a quest to capture the essence of the balance between the natural and the industrial, between the organic and the functional. Its design stems from a simple yet powerful idea: to create an object that exudes calm and stability. The wooden shaft represents the connection with the earth. Each grain evokes the nobility of materials that need no adornment to stand out. In contrast, its metal base symbolizes precision and the adaptability of modernity. Together, these parts speak a silent language of harmonious contrast.
