

OUTDOOR SHADE SOLUTIONS

Shade, Designed for Hospitality.

**Transform outdoor areas into comfortable,
inviting extensions of the hospitality experience.**

BAREKA's **Outdoor Parasol Collection** brings together thoughtful design, functional shade and versatile customisation for restaurants, cafés, bars, hotels and other F&B environments. Available in a range of shapes, sizes, frame finishes and canopy colours, each parasol can be tailored to complement the character and identity of the space.

More than a functional element, our parasols form part of BAREKA's Restaurant-in-a-Box Total Solution, bringing outdoor shade, furniture and surrounding elements together as one cohesive environment.

Parasol Collections

Fabric Finishes

Sauleda Nordic fabrics are mass-dyed acrylics, a perfect solution for marine canvas work, for their high UV resistance, water resistance and breathability, ideal for biminis, hoods, awnings, covers, cushions and more. They are acrylic fabrics that are specifically designed for the nautical sector, resisting the harsh conditions of the marine environment in various uses.

Frame Finishes

Parasol Base Solutions

A strong foundation for dependable outdoor shade. Choose from granite, steel, wheeled and cantilever base options in different weights and sizes to suit various parasol configurations and hospitality environments.

White granite base
(35, 55, 80 kg)

Steel base
(35, 55 kg)

White granite base
with wheels
(35, 55, 80 kg)

White granite base
for cantilever
(130, 160, 195 kg)

Extend the dining room past the doorway.

BAREKA's **Outdoor Awning Collection** brings retractable shade to shopfronts, terraces, walkways and pavement seating, turning frontage that sits empty in the midday sun into usable trading space. Folding-arm, full-cassette and dome profiles cover projections up to 4 metres, each built on 6063-T5 aluminium alloy arms.

Canopies are made in Sauleda 100% solution-dyed acrylic and available across an extensive palette of solid colours and classic stripes, so an awning can carry a venue's identity from the street.

More than a shade element, our awnings form part of BAREKA's Restaurant-in-a-Box Total Solution, bringing outdoor shade, furniture and surrounding elements together as one cohesive environment.

Shade Finishes

Sauleda canvases are high-performance fabrics made from fade-resistant, solution-dyed acrylic specially designed for awning canopies. All of these marine-grade fabrics undergo rigorous quality assurance testing, have an outer surface finish, and are treated with a specific process that makes the fabric waterproof. These easy-to-clean fabrics are mould and mildew resistant.
