Kian Design Studio

K D S

Outdoor

KIAN Design Studio (KDS) is a product brand powered by KIAN focuses on a collection conceived by internationally acclaimed designers for restaurants, work spaces, hotels, and accommodations.

We are on a journey towards sustainability by using a variety of recyclable materials in our designs and are open to collaborating with other like-minded design studios.

WE BELIEVE IN DESIGN TO GROW SUSTAINABLY

WHAT WE DO

Every time you savour a cup of premium coffee at a café, have a meal at a trendy restaurant, or relax at one of the prestigious hotels here or abroad, chances are good that you'd be sitting on a KDS chair, dining at a KDS table, or relaxing on a KDS sunlounger by the pool.

Our furniture can be found in hotels, eateries, education centres and F&B establishments in over 100 countries. Wide and varied though our clientele is, we have the flexibility to also cater to businesses with smaller orders, with no compromise in quality and attention to detail.

OUR CAPABILITIES

We deliver quality products consistently through the highest standards of quality. We are extremely particular about whom we choose to supply us raw materials for our products. KDS has also a vast reliable and trusted global network of suppliers that allows us to cater to the ever-growing demand of our products.

All materials are carefully examined at source for quality control before being shipped to our manufacturing factories.

Our dedicated team continually source for the best materials at the best prices, and the saving in cost are trickled down to our customers to make our furniture affordable.

Our customers can be rest assured our Original Designs are exclusively KDS, created by award-winning international designers. We ensure our products are marked with style and performance at all market segments.

OUR BRAND PROMISE

OUR BRAND PROMISE

Promises are meant to be kept, so we don't make ours lightly. The KDS Brand Promise says what you can expect from us.

BETTER DESIGN

Expect higher creativity and better designed systems. Combining style and performance, our versatile and timeless Original Designs cater to various market segments. Our 'better design' mindset is applied to all fields of endeavour within KIAN to give you ever better end-to-end services.

BETTER VALUE

Expect to have peace of mind and convenience. We provide smart and total furniture solutions, prompt responses, and reliable coordinated on-time delivery. Expect exclusivity and reasonable prices. Our Original Designs are created only for KDS by award-winning international Designers, and cost savings from our LEAN factories are passed on to you.

BETTER WORLD

Expect to engage with a company that has a conscience, one that cares for the environment and for the total wellbeing of its people.

We want to help make our world a cleaner, safer, more sustainable home. Partner with us if your business shares a similar vision for greener products and happy employees.

WHAT WE DO

To ensure a brighter future for the world and generations to come, we at KDS have begun taking sustainable steps in order to help save our planet from pollution and curb this growing epidemic.

By partnering ourselves with a fully integrated recycling company in Malaysia, Plashaus, we have succeeded inmanufacturing our award-winning Louvre and 120 chairs using sustainable Ocean Plastic (OP), with more products in the works.

OP is made of recycled ocean-bound plastics that have been ethically gathered from coastlines around Malaysia. Both of our companies worked closely with each other for months, prototyping multiple iterations to erfect the suitable material pellet formula which was then used to fabricate strong, sturdy and sustainable chairs fit for commercial use.

By giving our customers this sustainable option, we would like to invite you to join us on our journey towards sustainability.

Make the change with us for a greener, healthier Mother Earth.

KANSO

Geometrical composition in mind.

The Kanso rattan chair collection is aesthetically influenced by the principle of Kanso, which advocates for minimalism, mindfulness and a balanced way of living.

This conventional piece is revitalised, adding modern touches with geometrical composition in mind, exuding senses of harmony and sernity into any environment.

TCB

Talk about being luxuriously lazy in your back garden!

Everything about The China Bed (TCB) recalls the indulgent ease of opium smokers on their beds in China's past.

A sunshade keeps the sun from the eyes while one snoozes or reads and even getting up for a drink poses no problems. That's because TCB has a slightly sunken tray for holding a cup or glass. Corner units can be combined to form a two-seater.

OVNI

The Ovni outdoor lounge chair, a groundbreaking addition to our collection and the first of its kind.

Crafted from powder-coated mild steel and elegantly weaved with PE Wicker, the Ovni is not only sustainable but also a nod to environmental responsibility. Perfectly designed for outdoor spaces with limited room, it offers a stylish and eco-friendly solution without compromising on comfort.

BASKET

Since time immemorial, handmade hemp baskets have met human needs in countless ways: from storing food to cradling babies to trapping fish.

Their rounded shapes are the inspiration for the very adaptable Basket Chair of contemporary design. Made of stainless steel and flat wicker, this comfortable outdoor chair stands out for its comfort, attractiveness and easy fit into almost any kind of environment. Now also available as a barstool.

KANPAI

The Kanpai is a happy and cheerful collection that can liven up the mood in any space. Its speciality is encouraging people to gather around and engage in jovial conversation.

KOHAKU

Behold the Kohaku table collection, inspired by the captivating amber stone, Kohaku expresses a mesmerising blend of form and substance.

Just as the stone is trapped in resin, the table top is artfully enclosed by the frame, creating an enchanting visual narrative. The meticulous attention to detail is evident in the distinctive corner elements that infuse the collection with an air of elegance. Journey forth and let Kohaku's harmonious presence elevate your space.

Yohaku, or incompleteness, is present in every piece of the Yohaku chair collection, where the blank spaces are as much a part of the design as the chair itself.

Made from sustainable materials, including bamboo and aluminum tube, the side chairs, armchairs, and bar stools are perfect for both domestic and contract dining - especially for outdoor contexts.

Stackable and easily recyclable, Yohaku pieces perfectly balance form and function.

VIENNA

The 1930s are back again in the reinterpreted Vienna Collection.

The design and aesthetics of indoor furniture are brought outdoors, complete with aluminium castors for easy manoeuvrability in open-air spaces. In a contemporary twist, a shiny powder-coated aluminium mesh replaces the classic cane feature; all frames are made of aluminium; and the cushioned seats and backrests are in Sunproof outdoor fabric.

TORII

Minimalistic and welcoming with a touch of oriental elegance.

The Torii Chair collection draws its inspiration from the traditional, iconic Japanese shrine, known as a "Torii Gate".

This charming collection is further accentuated by oriental graphical elements, enriching culture, heritage and the welcoming hospitality of the Far East.

149

ALGIEBA

The name Algieba was inspired by a set of binary stars.

Aesthetically influenced by the rattan chair, this piece is highly suitable for your terrace as it is constructed with metal.

The frame represents the stars orbit, and the gap between each uneven metal tube represents the random distribution of moving stars.

MALENA

There is a down-to-earth feel about the Malena chair that gives it a timeless quality.

This powder-coated fully aluminium chair is light, strong, durable and comfortable. Its practical flavour, coupled with the distinctive industrial look makes this chair the right pick for both indoor and outdoor environments, either by itself or as part of a collection.

120

Polypropylene and mild steel combine to present modern sophistication, pure lines and a sturdy, stackable chair in ultra-fresh colours.

The 120 chair was inspired by a triangles' inherent strength. Look for the chair's unique feature of three 120 angles, adjacent to each other, forming the joint between the front leg and the chair seat.

Made from 100% Ocean-Bound Plastic (0BP).

MATERA

If you had to choose just one chair for both indoor and outdoor areas, the Matera chair is your pick.

Made of a metal frame and LLDPE, the Matera is water-resistant, so using it for al fresco dining poses no problems. It also saves storage space as it s stackable, and the simplicity of its design makes the chair an easy fit anywhere.

To have a different feel for indoor and outdoor spaces, just choose a different colour to distinguish between the two sets of chairs.

RUMBLE

The Rumble Series has an element of fun about it. Manufactured using the rotational moulding process, the hardy bench and stool are highly suitable for heavy-duty indoor and outdoor use.

The sunken at the edge of the chair makes it easy to handle. Bright vibrant colours and rounded edges make this child-friendly series an ideal furniture solution in outdoor educational settings.

Even more than its refined aesthetics, the functional design of the Lipia Highstool makes it an outstanding choice for university canteens, hospitality bars, transportation centres and outdoor public spaces.

The two-level footrests allow people of all heights to sit comfortably.

OBIE

This series features dramatic volume while preserving graceful, natural curves. The wide seats comfortably fit people of all sizes.

The Obie Arm Chair and Love Seat are designed for both indoor and outdoor spaces. Fashioned from polyethylene, this collection enjoys the considerable benefits of UV protection, imperviousness to fluids, durability and ease of cleaning. Using a single material in its construction also allows for cost-effective recycling.
