COMPACT HIGH-PRESSURE LAMINATE

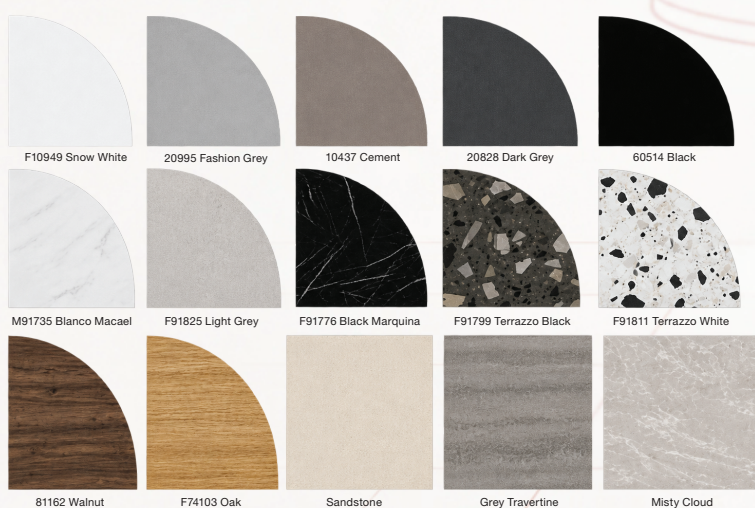

Intro & Technical

Compact high-pressure laminate (HPL) is a thick, solid, and self-supporting structural panel made from multiple layers of resin-impregnated kraft paper topped with decorative melamine surfaces.

Key Benefits For Exterior Applications

- **Waterproof:** Completely impervious to moisture, making it ideal for wet areas.
- **Durable:** Highly resistant to impact, scratches, wear, and heat.
- **Self-Supporting:** Sturdy enough to stand on its own without backing frames or core substrates.
- **Hygienic:** Non-porous surface resists bacteria and is easy to clean.

Colour Finishes (Thickness 12mm, Size is customizable)

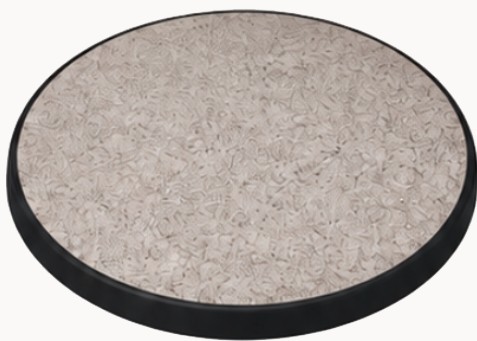

SEVELIT

Intro & Technical

Extremely resistant outdoor tabletops

SEVELIT tabletops are renowned throughout the world for their outstanding quality, eye-catching design and long durability. They are versatile and ideal for hospitality, garden or camping furniture.

SEVELIT Gray Stone

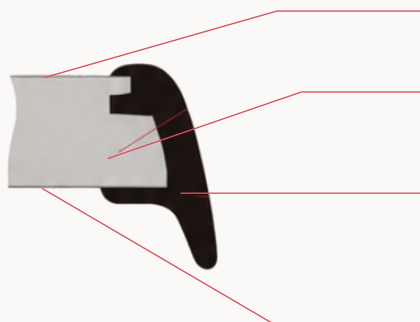

- More than 30 years' experience in the production
- Can be used both as indoor & outdoor furniture
- High resistance against UV rays, bad weather conditions, cigarette burns and heat
- Extraordinarily resistant to scratching, abrasion and impacts
- Edges with innovative easy-to-clean surface
- Innovative manufacturing process due to the use of high performance plastics to protect the tabletops from the damage usually associated with impacts and falls
- Regularly tested, certified and continuously audited by the TUV Rheinland test institute
- Outstanding price/performance ratio due to the highly automated and efficient production process

Our SEVELIT tabletops use approximately 1/3 of recycled material / post-consumer wood

Technical Details

Round & oval shape

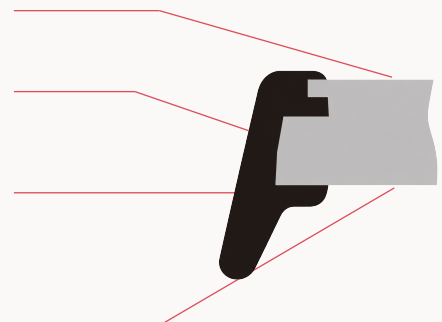

Surface, melamine resin coating with additional underlay

Special wood chipboard E1, with waterproof glue (environmentally-friendly with approx. 95% wood content)

Easy-clean edge, particularly high quality polypropylene, extremely resilient to impacts, optimum edge protection, preventing moisture penetration

Bottom, melamine resin coating with additional underlay

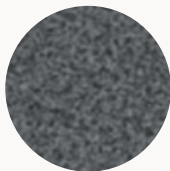

Rectangular & square shape

Dark Rock

Available Sizes

Top Shape	Top Size	Cross Section With Edge Profile (Overall Thickness)
	600 x 600mm	16 mm (~ 0.63")  27 mm (~ 1.06")
	700 x 700mm	16 mm (~ 0.63")  30 mm (~ 1.18")
	800 x 800mm	
	1150 x 700mm	16 mm (~ 0.63")  30 mm (~ 1.18")
	Dia600mm	16 mm (~ 0.63")  27 mm (~ 1.06")
	Dia700mm	16 mm (~ 0.63")  30 mm (~ 1.18")
	Dia850mm	
	1320 x 900mm	16 mm (~ 0.63")  30 mm (~ 1.18")

TERRAZZO

Intro & Technical

Terrazzo stone is an excellent, highly durable choice for outdoor countertops. A composite material containing fragments of marble, granite, quartz, or recycled glass mixed into a raw binding matrix.

Cement-bound terrazzo handles direct sun exposure, maintains structural integrity through temperature shifts, and naturally stays cool to the touch.

Key Benefits For Exterior Applications

- **UV Stability:** Cement matrix formulas resist intense sun rays, ensuring colours won't fade or warp
- **Temperature Diffusion:** Naturally reflects solar heat, remaining cooler to touch than dark granite or concrete
- **Eco-Friendly Value:** Made using pre-consumer recycled stone aggregates and zero volatile organic compounds (VOCs)

P.S.: The material is naturally porous, requires rigorous maintenance

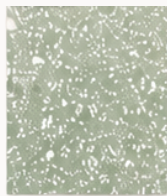

Colour Finishes (Thickness 20mm, Size is customizable)

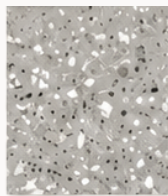

Roslin Light Yellow

Beige Macro

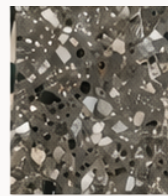

Alpine Green

Ivory Mist

Rosso Clay

Smoky Grey
